Mova Climate Report

Introduction *

1.1 End day of the reporting period *
2025-12-31

1.1.1 Reporting year *
2025

1.2 Describe your business activities
Mova supports nationally important infrastructure projects. Our vision is for a UK where innovative infrastructure reaches everyone. We believe in a digitally connected United Kingdom, where nobody is left behind. Mova is wholly owned by the UK's mobile network operators. Mova is the operating brand of Digital Mobile Spectrum Limited (DMSL).

1.3 Annual revenue in the reporting period*
-

1.4 Number of employees on the end day of the reporting period*
37

1.4.1 Full-time equivalent (FTE) or headcounts*
Headcounts

1.5 Is this report being submitted on behalf of a parent company or a subsidiary? If so, please briefly explain the relationship.*
Not applicable

Commitment and Targets *

2.1 Net zero target year*
2050

2.1.1 Base year*
2022

2.1.2 Base year value*
1130

Base year value confirmation*
I confirm that I have entered my base year value in metric tons CO2e

2.2 Near-term target*
50% of absolute scope 1+2 emission reduction from my base year by 2036

2.4 To reduce emissions in line with my commitment, my company has a climate action plan and is taking action*

Yes, the plan and action include scope 1+2

Own Emissions *

Energy consumption

3.2 Total energy consumption*

15425 kWh

3.3 Total renewable energy consumption *

0 kWh

Scope 1 emissions

3.4 Scope 1 emissions*

6.06 metric tons CO2e

Scope 2 emissions

3.5 Location-based Scope 2 emissions*

2.73 metric tons CO2e

Scope 1 and 2 units confirmation*

I confirm that I have entered all Scope 1 and 2 emissions values in metric tons CO2e

3.7 Have you taken any actions to reduce Scope 1 and 2 emissions in the reporting period?*

Yes

3.7.1 What actions have you taken?*

Climate strategy and planning,Switch to renewable electricity

3.7.2 Describe your actions taken to reduce Scope 1 and 2 emissions in the reporting period

All of our scope one and two emissions are due to remote working; we post internal messages with suggestions on how to reduce or to make a more efficient use of electricity during daily activities, plus research renewables solutions such as plug in solar panels.

3.8 Which tools or methods did you use to calculate your Scope 1 and 2 emissions?*

Small Business Carbon Calculator

3.8.1 Specify any additional details

We used the Small Business Carbon calculator, provided as part of the SME Climate Hub suite of tools. The data is derived from a survey of all employees, based on energy bills details. Regarding scope 3 emissions, we used financial data for the reporting period.

Value Chain Emissions (optional)

Scope 3 emissions

4.1 Have you measured any of your scope 3 emissions?

Yes

Supply chain related - upstream emissions

4.1.1 Purchased goods and services

342.61 metric tons CO2e

4.1.2 Capital goods

8.12 metric tons CO2e

4.1.3 Fuel and energy related activities

2.04 metric tons CO2e

4.1.6 Business travel

10.93 metric tons CO2e

4.1.7 Employee commuting

21.88 metric tons CO2e

Customer related - downstream emissions

4.1.16 Total scope 3 emissions

385.6 metric tons CO2e

Scope 3 units confirmation

I confirm that I have entered all Scope 3 emissions values in metric tons CO2e

4.2 Have you taken any actions to reduce scope 3 emissions in the reporting period?

Yes

4.3 Have you asked any of your suppliers to set a net zero target (either voluntarily or as a requirement)?

No

4.4 Have you communicated your commitment and actions to any of your customers?

Yes

4.5 Which tools or methods did you use to calculate your scope 3 emissions?

Small Business Carbon Calculator

Climate Solutions (optional)

5.1 Do any of your existing products and/or services qualify as climate solutions or enabling solutions?

No

5.5.1 Has any third party validated this?

Yes

Governance, Strategy and Climate Risk (optional)

6.1 What governance processes do you have in place for your climate strategy? Choose as many as are applicable.

Other (please specify)

6.1 Explain

Working group tasked with identifying and reducing key drivers of emissions. Internal action plan drafted annually and reported against to senior leadership team.

6.1.2 Is this person (or another at executive and board level) also responsible for climate risk?

Yes

6.2 Have you started to identify and assess your companies climate risks and opportunities?

Yes - we have identified both climate risks and opportunities

6.2.1 Where are the climate risks you've identified?

Own operations

6.4 Have you taken actions this year outside of your emissions to accelerate climate progress?

Yes

The working group regularly publishes internal messages to team members to raise awareness about climate related international days and initiatives; the team encourages colleagues to post about interesting products and services that reduce their carbon footprint.

Results, Challenges and Outlook *

7.1 Provide any additional comments or context on your annual results and progress from previous years.*

We continue to face similar challenges reducing scope 3 emissions, particularly related to business travel. Measuring the emissions of remote workers is still difficult to do accurately.

7.2 Do you face any key challenges in reducing emissions?*

Reducing scope 1+2 emissions,Reducing scope 3 emissions,Reducing emissions from business travel,Electrifying the vehicle fleet and/or cutting transport emissions,Lack of skills and knowledge

7.3 Has there been any third party validation of the data submitted in this report? *

No

-
